

EudraCT results: validation of full data set

This section is applicable only in case your results had to be uploaded as a full data set. If you have uploaded the results only as a summary attachment, this section is not applicable and you can [post your results](#) directly. The validation of results is needed after having uploaded results as a full data set and before posting them, see step 5 of [Tutorials on posting results](#). A full overview of EudraCT processes is provided in the [EudraCT step-by-step guide](#). In case support is needed, see [here](#).

Validate results

1. To validate results, select the relevant trial [in 'your page'](#) and click on 'Edit':

Draft results

EudraCT number	Version	Sponsor name	Friendly description	Last saved	Status	Options
2007-002716-26	1			18-Oct-2013	Draft	Edit View Manage assigned users

2. Once the following screen is displayed, click on 'Validate full data set':

Full data set

- Trial information**
No errors or warnings found.
- Subject disposition**
No errors or warnings found.
- Baseline characteristics**
No errors or warnings found.
- End points**
No errors or warnings found.
- Adverse events**

ERROR - Reporting Group: Topotecan	The number of fatalities causally related to the treatment for the serious adverse events collectively is less than the number of deaths resulting from adverse events.	More	Go to page
ERROR - Reporting Group: Cabazitaxel	The number of fatalities causally related to the treatment for the serious adverse events collectively is less than the number of deaths resulting from adverse events.	More	Go to page
- More information**
No errors or warnings found.

Download validation report

Ok

3. If any validation error is displayed, 'More' to see additional details on the error. Click 'Go to page' which directs you to the page where the error is located. You then need to correct it through finding it in the 'Message displayed' column of the in the [validation rules](#), and following the instructions provided in the relevant column 'rule description'.

4. In case a warning is displayed, it is sufficient to provide a justification in order to solve it.

Note: it is also possible to download the validation report (PDF format), through clicking on 'Download validation report' at the top right corner of the site.

After all errors/warnings are solved as per [validation rules](#) and your results are finalised, you can proceed with clicking on '[post results](#)'.
